

Louisiana's 2017 Coastal Master Plan Modeling Update #2- WEBINAR

September 22, 2015
12 - 4 pm

Join us for presentations on:

- + Storm Surge and Waves
- + Risk Assessment
- + Hydrology and Water Quality
- + Wetland Morphology
- + Vegetation
- + Barrier Islands
- + Habitat Suitability Indices
- + Ecopath with Ecosim
- + Q&A will follow each presentation

Fellow researchers, academics, and other members of the technical community are invited to join us to learn more about the suite of modeling tools that has been developed to support the 2017 Coastal Master Plan. This webinar is part of a series of technical updates on different aspects of 2017 Coastal Master Plan development. This event will focus solely on the modeling effort. The webinar will be recorded and posted to the CPRA website.

To join the event you must register in advance at:
