PART 1: ADMINISTRATIVE AND GENERAL INFORMATION

1.1 Purpose

The purpose of this Request for Proposal (RFP) is to obtain competitive proposals from bona fide, qualified proposers who are interested in providing program/project management support services as part of the Mid-Basin Sediment Diversion Program, which involves the complete implementation of the Mid-Barataria and Mid-Breton Sediment Diversion Projects. CPRA will award a single contract and authorize scopes of work on a task order basis under the contract.

Anticipated services in the RFP will include program and project management services for the Mid-Basin Sediment Diversion Program implementation including but not limited to: program management, grant proposal development, program controls, scheduling, cost control, change management, communications, document management, operations, outreach and engagement, performance monitoring and reporting, policy and standard development, risk management, electronic document/database hosting, program delivery plan, permitting planning, land acquisition planning, health and safety planning, and quality control management. The Proposer would be directly integrated with CPRA Mid-Basin Sediment Diversion program staff. The Proposer will be expected to embed staff at the CPRA office or a designated CPRA co-located office.

CPRA considers any firm affiliated with the Engineering & Design, Environmental Impact Statement (EIS), Independent Cost Estimator and Construction Management At-Risk (CMAR) contracts or tasks for both Mid-Barataria and Mid-Breton Sediment Diversion Projects to be ineligible for selection of the Mid-Basin Sediment Diversion Program/Project Management Support Services contract.

1.2 Background

The CPRA is seeking program/project management support services to supplement staff capabilities relative to implementing Louisiana’s Mid-Basin Sediment Diversion Program. The Louisiana Coastal Protection and Restoration Authority Board of Louisiana, through the Coastal Protection and Restoration Authority (“CPRA”), created an internal program in January 2016 to implement the Mid-Basin Sediment Diversions during the engineering and design phase. This phase includes the environmental review, permitting, land services, engineering, and design to reach the construction phase.

Mississippi River Sediment Diversion Program Background

CPRA’s Coastal Master Plan has identified sediment diversions as one of the types of projects critical to the restoration of Louisiana’s coastal ecosystem. By reconnecting the river, these projects will reestablish the natural deltaic processes to build, sustain and maintain wetlands in accordance with the Louisiana Comprehensive Master Plan for a Sustainable Coast (Coastal Master Plan), whose overarching objectives are:

- **Flood Protection**: Reduce economic losses from storm surge based flooding to residential, public, industrial, and commercial infrastructure.
- **Natural Processes**: Promote a sustainable coastal ecosystem by harnessing the natural processes of the system.
- **Coastal Habitats:** Provide habitats suitable to support an array of commercial and recreational activities coast wide.
- **Cultural Heritage:** Sustain the unique cultural heritage of coastal Louisiana by protecting historic properties and traditional living cultures and their ties and relationships to the natural environment.
- **Working Coast:** Promote a viable working coast to support regionally and nationally important businesses and industries.

In November 2015, upon the conclusion of several in-depth studies and modeling efforts, CPRA decided to initiate implementation of the Mid-Barataria and Mid-Breton Sediment Diversion Projects. To assist with timely efforts for procurement and management of design, environmental requirements, and construction of the Mid-Barataria and Mid-Breton Projects, the CPRA created the Mississippi River Mid-Basin Sediment Diversion Program (Program).

The funding for the planning, permitting, engineering and design for the Project is through the National Fish and Wildlife Foundation (NFWF) from the Gulf Environmental Benefit Fund (GEBF). The GEBF resulted from plea agreements on the *Deepwater Horizon* Oil Spill to fund projects benefiting the natural resources of the Gulf Coast that were impacted by the spill. Some elements of the Program may be funded from other settlement agreements from the *Deepwater Horizon* Oil Spill.

The Program includes diversion projects located on the west and east banks of the Mississippi River as shown on Figure 1.

![Figure 1: Mid-Basin Sediment Diversion Program Location](image-url)
Both diversion projects will be designed to capture high amounts of sediment and freshwater carried downstream by the river during flood events and deliver them into their respective basins’ wetlands and open water areas. The sediment deposited as a result of these projects is intended to build new wetlands, and to maintain and sustain existing wetlands in both basins.

1.3 Goals and Objectives

The goal of this RFP is to provide CPRA with an experienced consulting services contractor to perform program/project management support services as part of the Mid-Basin Sediment Diversion Program.

1.4 Term of Contract

With all proper approvals and concurrence with the successful Contractor, agency may also exercise an option to extend for up to twenty-four (24) additional months at the same rates, terms and conditions of the initial contract term. Prior to the extension of the contract beyond the initial thirty-six (36) month term, approval by the Joint Legislative Committee on the Budget (JLCB) or other approval authorized by law shall be obtained. Such written evidence of JLCB approval shall be submitted, along with the contract amendment to the Office of State Procurement (OSP) to extend contract terms beyond the initial 3-year term. H. **Veteran and Hudson Initiative Programs Participation:**

LaVet's and SE's respectively) to participate in contracting and procurement with the State. A certified Veteran-Owned and Service-Connected Disabled Veteran-Owned small entrepreneurship (LaVet) and a Louisiana Initiative for Small Entrepreneurations (Hudson Initiative) small entrepreneurship are businesses that have been certified by the Louisiana Department of Economic Development. All eligible vendors are encouraged to become certified. Qualification requirements and online certification are available at: https://smallbiz.louisianaeconomicdevelopment.com.

If a Proposer is not a certified small entrepreneurship as described herein, but plans to use certified small entrepreneurship(s), Proposer shall include in their proposal the names of their certified Veteran Initiative or Hudson Initiative small entrepreneurship subcontractor(s), a description of the work each will perform, and the dollar value of each subcontract.

During the term of the contract and at expiration, the Contractor will also be required to report Veteran-Owned and Service-Connected Disabled Veteran-Owned and Hudson Initiative small entrepreneurship subcontractor or distributor participation and the dollar amount of each.

In RFP’s requiring the compliance of a good faith subcontracting plan, the State may require Proposers to submit information on their business relationships and arrangements with certified LaVet or Hudson Initiative subcontractors at the time of proposal review. Agreements between a Proposer and a certified LaVet or Hudson Initiative subcontractor in which the certified LaVet or Hudson Initiative subcontractor promises not to provide subcontracting quotations to other Proposers shall be prohibited.

If performing its evaluation of proposals, the State reserves the right to require a non-certified Proposer to provide documentation and information supporting a good faith subcontracting plan. Such proof may include contracts between proposer and certified Veteran Initiative and/or Hudson Initiative subcontractor(s).

If a contract is awarded to a Proposer who proposed a good faith subcontracting plan, the using agency, the Louisiana Department of Economic Development (LED), or the Office of State Procurement (OSP) may audit Contractor to determine whether Contractor has complied in good faith with its subcontracting plan. The Contractor must be able to provide supporting documentation (i.e., phone logs, fax transmittals, letter, e-mails) to demonstrate its good faith subcontracting plan was followed. If it is determined at any time by the using agency, LED, or the OSP Director that the Contractor did not in fact perform in good faith its subcontracting plan, the contract award or the existing contract may be terminated.

The rules for the Veteran Initiative (LAC 19:VII. Chapters 11 and 15) and for the Hudson Initiative (LAC 19:VIII Chapters 11 and 13) may be viewed at:
A current list of certified Veteran-Owned and Service-Connected Disabled Veteran-Owned and Hudson Initiative small entrepreneurship may be obtained from the Louisiana Economic Development Certification System at: https://smallbiz.louisianaeconomicdevelopment.com

I. **Cost Proposal:** The Proposer shall provide an hourly rate (numerical value) for each of the staff classifications listed in the “Required Rate Schedule” in Attachment II. The Prime and subcontractors will adhere to the “Required Rate Schedule” for the full term of the contract, so Proposers are to submit only one “Required Rate Schedule.” Proposers **shall not** provide additional personnel classifications beyond those listed in the “Required Rate Schedule.”

The Required Rate Schedule will include an Office Rate, a Field Rate, and an Embedded Rate for each of the labor categories.

- The Embedded Rate shall consist of a reduced rate due to personnel being embedded at CPRA Office or at a designated co-located office.

All other expenses (such as third party charges, specialized equipment and material rentals, etc.) will be reimbursed at cost. If a task requires third party charges or specialized equipment or materials, the Contract Monitor or his designee may approve reimbursement at cost for such equipment or materials. Such approval must be granted by the Contract Monitor or his designee in writing prior to the Contractor incurring these costs.

with any state employee or contractor of the State involved in any step in the procurement process about the affected procurement. The blackout period applies not only to state employees, but also to any contractor of the State. “Involvement” in the procurement process includes but may not be limited to project management, design, development, implementation, procurement management, development of specifications, and evaluation of proposals for a particular procurement. The blackout period will begin upon posting of the solicitation. The blackout period will end when the contract is awarded.

In those instances in which a prospective Proposer is also an incumbent contractor, the State and the incumbent contractor may contact each other with respect to the existing contract only. Under no circumstances may the State and the incumbent contractor and/or its representative(s) discuss the blacked-out procurement.

Any bidder, Proposer, or state contractor who violates the blackout period may be liable to the State in damages and/or subject to any other remedy allowed by law.

Based upon information received in the presentation, using the same criteria used for initial scores, original scores that were assigned in the initial evaluation may be adjusted.

All proposals will be reviewed to determine compliance with administrative and mandatory requirements as specified in the RFP. Proposals that are not in compliance will be rejected from further consideration.
1.27 Evaluation and Selection

The evaluation of proposals will be accomplished by a Proposal Review Committee to be designated by the CPRA, which will determine the proposal(s) most advantageous to the CPRA, taking into consideration price and the other evaluation factors set forth in the RFP. The State reserves the right to conduct a BAFO with one or more Proposers identified by the evaluation committee to be reasonably susceptible of being selected for an award. If conducted, the Proposers selected will receive written notification of their selection, a list of specific items to address in the BAFO, and instructions for submittal. The BAFO negotiation may be used to assist the State in clarifying the scope of work or to obtain the most cost effective pricing available.

The written invitation to participate in BAFO will not obligate the State to a commitment to enter into a contract.

1.29 Contract Award, Negotiation, and Execution

The State reserves the right to enter into a contract based on the initial offers received without further discussion of the proposals submitted. The State reserves the right to contract for all or a partial list of services offered in the proposals.

The RFP, including any addenda added, and the selected proposal shall become part of the contract initiated by the State.

The selected Proposer shall be expected to enter into a contract that is substantially the same as the Sample Contract, Attachment III. A Proposer shall not submit its own standard contract terms and conditions as a response to this RFP. The Proposer should submit in its proposal any exceptions or contract deviations that its firm wishes to negotiate. Negotiations may coincide with the announcement of the selected Proposer.

The State reserves the right to negotiate a reduction to the Required Rate Schedule hourly rates (Attachment II) with the Proposer selected by the Proposal Review Committee for contract award. The Proposer will receive written notification of the State’s intent to negotiate submitted rates. The final negotiated hourly rates on the Proposer’s Required Rate Schedule will be considered the maximum amount allowed. The Prime and the subcontractors will also adhere to the final negotiated hourly rates of the Proposer for the full term of the contract.

If the contract negotiation period exceeds 30 business days, or if the selected Proposer fails to sign the final contract within 30 business days of delivery, the State may elect to cancel the award and award the contract to the next-highest-ranked Proposer.

Proposer must receive a minimum score of 34 (50%) of the total available points in the technical categories of Company Background and Experience, Approach and Methodology and Proposed Staff Qualifications to be considered responsive to the RFP. **Proposals not meeting the minimum score shall be rejected and not proceed to further Cost or Louisiana Veteran and/or Hudson Initiative evaluation.**

Should Proposers meet the minimum score for the technical categories, that score will be combined with the Cost and Hudson/Veteran Program points to determine the overall score.

The Proposer with the highest overall score will be recommended for award.

3.4 Veteran-Owned and Service-Connected Disabled Veteran-Owned Small Entrepreneurships (Veteran Initiative) and Louisiana Initiative for Small Entrepreneurships (Hudson Initiative) Programs Participation

A. Twelve percent (12%) of the total evaluation points in this RFP are reserved for Proposers who are certified small entrepreneurships, or who will engage the participation of one or more certified small entrepreneurships as subcontractors. Reserved points shall be added to the applicable Proposers’ evaluation score as follows:

B. Proposer Status and Allotment of Reserved Points
   i. If the Proposer is a certified Veterans Initiative small entrepreneurship, the Proposer shall receive points equal to twelve percent (12%) of the total evaluation points in this RFP.
   ii. If the Proposer is a certified Hudson Initiative small entrepreneurship, the Proposer shall receive points equal to ten percent (10%) of the total evaluation points in this RFP.
   iii. If the Proposer demonstrates its intent to use certified small entrepreneurship(s) in the performance of contract work resulting from this solicitation, the Proposer shall receive points equal to the net percentage of contract work which is projected to be performed by or through certified small entrepreneurship subcontractors, multiplied by the appropriate number of evaluation points.
   iv. The total number of points awarded pursuant to this Section shall not exceed twelve percent (12%) of the total number of evaluation points in this RFP.
If the Proposer is a certified Veterans Initiative or Hudson Initiative small entrepreneurship, the Proposer must note this in its proposal in order to receive the full amount of applicable reserved points.

If the Proposer is not a certified small entrepreneurship, but has engaged one (1) or more Veterans Initiative or Hudson Initiative certified small entrepreneurship(s) to participate as subcontractors, the Proposer shall provide the following information for each certified small entrepreneurship subcontractor in order to obtain any applicable Veterans Initiative or Hudson Initiative points:

iii. A detailed description of the work anticipated to be performed; and
iv. The anticipated dollar value of the subcontract for the three-year contract term based on a $3,000,000.00 estimated contract value.

Note – it is not mandatory to have a Veterans Initiative or Hudson Initiative certified small entrepreneurship subcontractor. However, it is mandatory to include this information in order to receive any allotted points when applicable.

If multiple Veterans Initiative or Hudson Initiative subcontractors will be used, the above required information should be listed for each subcontractor. The Proposer should provide a sufficiently detailed description of each subcontractor’s work so the Department is able to determine if there is duplication or overlap, or if the subcontractor’s services constitute a distinct scope of work from each other subcontractor(s).

3.5 Cost Evaluation

For cost evaluation purposes, the labor category hourly rates provided in Attachment II, Required Rate Schedule, will be averaged. The Proposer with the lowest rate schedule average (LRSA) will receive 20 points. All other proposals will be rated by multiplying the maximum possible points (20) by a fraction that consists of the lowest rate schedule average (LRSA) as numerator and the rate schedule average of the Proposer being evaluated (PRSA) as the denominator.

\[
CCS = (LRSA/PRSA \times 20)
\]

Where: CCS = Computed cost score (points) for Proposer being evaluated
LRSA = Lowest rate schedule average
PRSA = Rate schedule average of Proposer being evaluated
PART 4: PERFORMANCE STANDARDS

All required insurance shall be provided by a company or companies lawfully authorized to do business in the jurisdiction in which the Project is located. Insurance shall be placed with insurers with an A.M. Best's rating of A-:VI or higher. This rating requirement may be waived for workers compensation coverage only.

and approved by the Agency before work commences and upon any contract renewal or insurance policy renewal thereafter.

Upon failure of the Contractor to furnish, deliver and maintain required insurance, the contract, at the election of the Agency, may be suspended, discontinued or terminated. The Contractor shall provide its seven-digit LDR Account Number to the State for this determination. The State’s obligations are conditioned on the Contractor resolving any identified outstanding tax compliance discrepancies with the Louisiana Department of Revenue within seven (7) days of such notification. If the respective company prefers, they can add a section entitled “Contributing Authors” or “Acknowledgements” to more explicitly list or give credit to the individual authors who have worked on the project/study.

Records shall be made available during normal working hours for this purpose.

21. **ASSIGNMENT**

Contractor shall not assign any interest in this Contract by assignment, transfer, or novation, without prior written consent of the CPRA. This provision shall not be construed to prohibit the Contractor from assigning its bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to CPRA.

22. **SUCCESSORS AND ASSIGNS**

This Contract shall be binding upon the successors and assigns of the respective parties hereto.

The identification of all such confidential data and
information as well as the State's procedural requirements for protection of such data and information from unauthorized use and disclosure shall be provided by the State in writing to the contractor. If the methods and procedures employed by the contractor for the protection of the contractor's data and information are deemed by the State to be adequate for the protection of the State's confidential information, such methods and procedures may be used, with the written consent of the State, to carry out the intent of this paragraph. The contractor shall not be required under the provisions of the paragraph to keep confidential any data or information which is or becomes publicly available, is already rightfully in the contractor's possession, is independently developed by the contractor outside the scope of the contract, or is rightfully obtained from third parties.

H. Other Information—Optional,

This section may include any additional information that will assist a potential applicant. For example, the section might:

1. Indicate whether this is a new program or a one-time initiative.

2. Mention related programs or other upcoming or ongoing Federal awarding agency funding opportunities for similar activities.

3. Include current Internet addresses for Federal awarding agency Web sites that may be useful to an applicant in understanding the program.

4. Alert applicants to the need to identify proprietary information and inform them about the way the Federal awarding agency will handle it.

5. Include certain routine notices to applicants (e.g., that the Federal government is not obligated to make any Federal award as a result of the announcement or that only brave officers can bind the Federal government to the expenditure of funds).

APPENDIX E TO PART 200—CONTRACT PROVISIONS FOR NON-FEDERAL ENTITY CONTRACTS UNDER FEDERAL AWARDS

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at $150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

OMB Guidance

(D) Davis-Bacon Act, as amended (40 U.S.C. 3341-3348). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subcontractor must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6301).

(I) Debarment and Suspension (Executive Orders 12549 and 12899)—A contract award (see 2 CFR 180.230) must not be made to parties listed on the governmentwide Excluded Parties List System in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp., p. 189) and 12899 (3 CFR Part 1989 Comp., p. 225). "Debarment and Suspension." The Excluded Parties List System in SAM contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1355)—Contractors that apply or bid for an award of $100,000 or more must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any

See subsection B.1. Definition of Facilities and Administration, for a discussion of the components of indirect (F&A) costs.

1. Major Functions of an Institution

Refers to instruction, organized research, other sponsored activities and other institutional activities as defined in this section:

a. Instruction means the teaching and training activities of an institution. Except for research training as provided in subsection b, this term includes all teaching and training activities, whether they are offered for credits toward a degree or certificate or on a non-credit basis, and whether they are offered through regular academic departments or separate divisions, such as a summer school division or an extension division. Also considered part of this major function are departmental research, and, where agreed to, university research.

b. Sponsored instruction and training means specific instructional or training activity established by grant, contract, or cooperative agreement. For purposes of the cost principles, this activity may be considered a major function even though an institution's accounting treatment may include it in the instruction function.

2. Departmental research means research, development and scholarly activities that are not organized research and, consequently, are not separately budgeted and accounted for. Departmental research, for purposes of this document, is not considered as a major function, but as a part of the instruction function of the institution.

b. Organized research means all research and development activities of an institution that are separately budgeted and accounted for. It includes:

(1) Sponsored research means all research and development activities that are sponsored by Federal and non-Federal agencies and organizations. This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(2) University research means all research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds. University research, for purposes of this document, must be combined with sponsored research under the function of organized research.

c. Other sponsored activities means programs and projects financed by Federal and non-Federal agencies and organizations which involve the performance of work other than instruction and organized research. Examples of such programs and projects are health service projects and community service programs. However, when any of these activities are undertaken by the institution without outside support, they may be classified as other institutional activities.

d. Other institutional activities means all activities of an institution except for instruction, departmental research, organized research, and other sponsored activities, as defined in this section; indirect (F&A) cost activities identified in this Appendix paragraph B. Identification and assignment of indirect (F&A) costs; and specialized services facilities described in §200.466 Specialized service facilities of this Part.

Examples of other institutional activities include operation of residence halls, dining halls, hospitals and clinics, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar auxiliary enterprises. This definition also includes any other categories of activities, costs of which are “unallowable” to Federal awards, unless otherwise indicated in an award.

2. Criteria for Distribution

a. Base period. A base period for distribution of indirect (F&A) costs is the period during which the costs are incurred. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. Need for cost groupings. The overall objective of the indirect (F&A) cost allocation process is to distribute the indirect (F&A) costs described in Section B. Identification and assignment of indirect (F&A) costs, to
ATTACHMENT IV: ELECTRONIC VENDOR PAYMENT SOLUTION

In an effort to increase efficiencies and effectiveness as well as be strategic in utilizing technology and resources for the State and Contractor, the State intends to make all payments to Contractors electronically. The LaCarte Procurement Card will be used for purchases of $5,000 and under, and where feasible, over $5,000. Contractors will have a choice of receiving electronic payment for all other payments by selecting the Electronic Funds Transfer (EFT). If you receive an award and do not currently accept the LaCarte card or have not already enrolled in EFT, you will be asked to comply with this request by choosing either the LaCarte Procurement Card and/or EFT. You may indicate your acceptance below.

The LaCarte Procurement Card uses a Visa card platform. Contractors receive payment from state agencies using the card in the same manner as other Visa card purchases. Contractors cannot process payment transactions through the credit card clearinghouse until the purchased products have been shipped or received or the services performed.

For all statewide and agency term contracts:
- Under the LaCarte program, purchase orders are not necessary. Orders must be placed against the net discounted products of the contract. All contract terms and conditions apply to purchases made with LaCarte.
- If a purchase order is not used, the Contractor must keep on file a record of all LaCarte purchases issued against this contract during the contract period. The file must contain the particular item number, quantity, line total and order total. Records of these purchases must be provided to the Office of State Procurement on request.

EFT payments are sent from the State’s bank directly to the payee’s bank each weekday. The only requirement is that you have an active checking or savings account at a financial institution that can accept Automated Clearing House (ACH) credit files and remittance information electronically. Additional information and an enrollment form is available at: http://www.doa.la.gov/osrap/ISIS%20EFT%20Form.pdf

To facilitate this payment process, you will need to complete and return the EFT enrollment form contained in the link above.

If an award is made to your company, please check which option you will accept or indicate if you are already enrolled.
