# CURRENT CONSTRUCTION COST/BID TRENDS

- **Rising Construction Costs across Sectors**
  - Supply chain issues
  - Volatility in construction material prices
  - Labor shortages
  - Spike in fuel prices
- **CPRA Bidding Summary (2022 YTD):**
  - Total of Project Bids (low bid): \$62,428,495
  - Total of Engineers' Estimates: \$49,951,433
  - % Difference: 25%
- Not expected to improve in the near term, particularly for contracts involving materials such as steel, cement, asphalt, rock/rip rap, etc.
- Also concerns on upcoming dredging projects given recent spike in diesel (~85% increase since Q2 2021)
