PART 1: ADMINISTRATIVE AND GENERAL INFORMATION

1.1 Purpose

The purpose of this Request for Proposal (RFP) is to obtain competitive proposals from bona fide, qualified proposers who are interested in providing program/project management support services as part of the Mid-Basin Sediment Diversion Program, which involves the complete implementation of the Mid-Barataria and Mid-Breton Sediment Diversion Projects. CPRA will award a single contract and authorize scopes of work on a task order basis under the contract.

Anticipated services in the RFP will include program and project management services for the Mid-Basin Sediment Diversion Program implementation including but not limited to:

- Program Management;
- Grant proposal development;
- Program controls: scheduling, cost control;
- Change management;
- Communications;
- Document management;
- Operations;
- Outreach and engagement;
- Performance monitoring / reporting and policy / standard development;
- Risk management;
- Electronic document/database, Construction administration hosting/software;
- Program delivery plan;
- Permitting planning;
- Land acquisition planning;
- Health and safety planning;
- Quality control/assurance management;
- Construction management and administration;
- Resident and Deputy Resident Engineer Oversight;
- Mitigation Implementation and Management;
- Monitoring and Adaptive Management; and,
- Project Commissioning and Operations.

The Contractor will be directly integrated with CPRA Mid-Basin Sediment Diversion program staff. The Contractor will be expected to embed staff at the CPRA office, a designated CPRA co-located office, and or at a project field office.

CPRA considers any firm currently affiliated with the Engineering and Design, Environmental Impact Statement (EIS), Safety Assurance Review (SAR), Independent Cost Estimator (ICE) and Construction Management At-Risk (CMAR) contracts or tasks for the both Mid-Barataria and Mid-Breton Sediment Diversion Projects to be ineligible for selection of the Mid-Basin Sediment Diversion Program Program/Project Management Support Services contract.”

1.2 Background

The CPRA is seeking program/project management support services to supplement staff capabilities relative to implementing Louisiana's Mid-Basin Sediment Diversion Program. The Louisiana Coastal Protection and Restoration Authority Board of Louisiana, through the Coastal Protection and Restoration Authority ("CPRA"), created an internal program in January 2016 to implement the Mid-Basin Sediment Diversions during the engineering and design phase. This phase includes the environmental review, permitting, land services, engineering and design, and construction phases.

Mississippi River Sediment Diversion Program Background

CPRA's Coastal Master Plan has identified sediment diversions as one of the types of projects critical to the restoration of Louisiana's coastal ecosystem. By reconnecting the river, these projects will reestablish the natural deltaic processes to build, sustain and maintain wetlands in accordance with the Louisiana Comprehensive Master Plan for a Sustainable Coast (Coastal Master Plan), whose overarching objectives are:

- Flood Protection: Reduce economic losses from storm surge based flooding to residential, public, industrial, and commercial infrastructure.
- Natural Processes: Promote a sustainable coastal ecosystem by harnessing the natural processes of the system.
- Coastal Habitats: Provide habitats suitable to support an array of commercial and recreational activities coast wide.
- Cultural Heritage: Sustain the unique cultural heritage of coastal Louisiana by protecting historic properties and traditional living cultures and their ties and relationships to the natural environment.
- Working Coast: Promote a viable working coast to support regionally and nationally important businesses and industries.

In November 2015, upon the conclusion of several in-depth studies and modeling efforts, CPRA decided to initiate implementation of the Mid-Barataria and Mid-Breton Sediment Diversion Projects. To assist with timely efforts for procurement and management of design, environmental requirements, and construction of the Mid-Barataria and Mid-Breton Projects, the CPRA created the Mississippi River Mid-Basin Sediment Diversion Program (Program).

The funding for the planning, permitting, engineering and design, mitigation, monitoring and adaptive management, and construction for the Project(s) are through the National Fish and Wildlife Foundation (NFWF) from the Gulf Environmental Benefit Fund (GEBF) and the Natural Resource Damage Assessment (NRDA) and the Louisiana Trustee Implementation Group (LATIG). These funds are as result of the *Deepwater Horizon* Oil Spill, which fund projects benefiting the natural resources of the Gulf Coast, which were impacted by the spill. Some elements of the Program may be funded from other funding sources.

The Program includes diversion projects located on the west and east banks of the Mississippi River as shown on Figure 1.

Figure 1: Mid-Basin Sediment Diversion Program Location

Both diversion projects will be designed to capture high amounts of sediment and freshwater carried downstream by the river during flood events and deliver them into their respective basins' wetlands and open water areas. The sediment deposited as a result of these projects is intended to build new wetlands, and to maintain and sustain existing wetlands in both basins.

1.3 Goals and Objectives

The goal of this RFP is to provide CPRA with an experienced consulting services contractor to perform program/project management support services as part of the Mid-Basin Sediment Diversion Program.

1.4 Term of Contract

The term of contract resulting from this RFP shall begin on or about November 01, 2024 and shall end on or about October 31, 2027.

With all proper approvals and concurrence with the successful Contractor, agency may also exercise an option to extend for up to twenty-four (24) additional months at the same rates or a negotiated maximum amount of a 2% increase for each of the hourly labor rates on the Contractor's Negotiated Required Rate Schedule, terms and conditions of the initial contract term. Prior to the extension of the contract beyond the initial thirty-six (36) month term, approval by the Joint Legislative Committee on the Budget (JLCB) or other approval authorized by law shall be obtained. Such written evidence of JLCB approval shall be submitted, along with the contract amendment to the Office of State Procurement (OSP) to extend contract terms beyond the initial 3-year term. 1.15.3 Blackout Period

The blackout period is a specified period of time during a competitive sealed procurement process in which any Proposer, bidder, or its agent or representative, is prohibited from communicating with any state employee or contractor of the State involved in any step in the procurement process about the affected procurement. The blackout period applies not only to state employees, but also to any contractor of the State. "Involvement" in the procurement process includes but may not be limited to project management, design, development, implementation, procurement management,

development of specifications, and evaluation of proposals for a particular procurement. All solicitations for competitive sealed procurements will identify a designated contact person, as per Proposer Inquiries section of this RFP. All communications to and from potential Proposers, bidders, vendors and/or their representatives during the blackout period must be in accordance with this solicitation's defined method of communication with the designated contact person. The blackout period will begin upon posting of the solicitation. The blackout period will end when the contract is awarded.

In those instances, in which a prospective Proposer is also an incumbent contractor, the State and the incumbent contractor may contact each other with respect to the existing contract only. Under no circumstances may the State and the incumbent contractor and/or its representative(s) discuss the blacked-out procurement.

Any bidder, Proposer, or state contractor who violates the blackout period may be liable to the State in damages and/or subject to any other remedy allowed by law.

Any costs associated with cancellation or termination will be the responsibility of the Proposer or bidder.

Notwithstanding the foregoing, the blackout period shall not apply to:

- A protest to a solicitation submitted pursuant to La. R.S. 39:1671;
- Duly noticed site visits and/or conferences for bidders or Proposers;
- Oral presentations during the evaluation process; and
- Communications regarding a particular solicitation with the RFP Coordinator listed in the RFP of the procuring agency provided the communication is limited strictly to matters of procedure. Procedural matters include deadlines for decisions or submission of proposals and the proper means of communicating regarding the procurement, but shall not include any substantive matter related to the particular procurement or requirements of the RFP.

1.17 Changes and Addenda

The State reserves the right to change the Schedule of Events or revise any part of the RFP by issuing an addendum to the RFP at any time prior to the Deadline for Receipt of Proposals.. Addenda, if any, will be posted at <https://wwwcfprd.doa.louisiana.gov/osp/lapac/pubMain.cfm> and <http://coastal.la.gov/resources/rfps-rsiqs-contracts/contracts-and-grants/>

It shall be the responsibility of the Proposer to check the website for addenda to the RFP.

1.19 Waiver of Administrative Informalities

The State shall reserve the right, at its sole discretion, to waive minor administrative informalities contained in any proposal.

1.20 Proposal Rejection/RFP Cancellation

Issuance of this RFP in no way shall constitute a commitment by the State to award a contract. The State shall reserve the right to accept or reject, in whole or part, all proposals submitted and/or cancel this RFP if it is determined to be in the State's best interest.

1.21 Ownership of Proposal

All materials submitted in response to this RFP shall become the property of the State. Selection or rejection of a proposal shall not affect this right.

The Contractor shall be responsible for payment of all applicable taxes from the funds to be received under contract awarded from this RFP.

In accordance with R.S. 39:1624(A) (10), the Louisiana Department of Revenue must determine that the prospective contractor is current in the filing of all applicable tax returns and reports and in payment of all taxes, interest, penalties, and fees owed to the state and collected by the Department of Revenue prior to the approval of the contract by the Office of State Procurement. The prospective contractor shall attest to its current and/or prospective compliance by signing the Attachment II: Certification Statement submitted with its proposal, and also agrees to provide its seven-digit LDR Account Number to the contracting agency so that the prospective contractor's tax payment compliance status may be verified. The prospective contractor further acknowledges understanding that issuance of a tax clearance certificate by the Louisiana Department of Revenue is a necessary precondition to the approval and effectiveness of the contract by the Office of State Procurement. The contracting agency reserves the right to withdraw its consent to the contract without penalty and proceed with alternate arrangements should the vendor fail to resolve any identified apparent outstanding tax compliance discrepancies with the Louisiana Department of Revenue within seven (7) days of such notification.

1.25 Use of Subcontractors

The State shall have a single Prime Contractor as the result of any contract negotiation, and the Prime Contractor shall be responsible for all deliverables specified in the RFP and Proposal. This general requirement notwithstanding, Proposers may enter into subcontractor arrangements, however, shall acknowledge in their proposals total responsibility for the entire contract and all subcontractor work.

If the Proposer intends to subcontract for portions of the work, the Proposer shall identify in the Proposal any subcontractor relationships and include specific designations of the types of tasks to be performed by the subcontractor. Information required of the Proposer under the terms of this RFP shall also be required for each subcontractor if requested by the State. The Prime Contractor shall be the single point of contact for all subcontract work.

If Oral Presentations are requested by CPRA, detailed information and requirements for presentations will be provided to the contact person for each of the invited Proposers. Commitments made by the Proposer at the Oral Presentation, if any, will be considered binding.

1.27 Acceptance of Proposal Content

All proposals will be reviewed to determine compliance with administrative and mandatory requirements as specified in the RFP. Proposals that are not in compliance will be rejected from further consideration.

1.28 Evaluation and Selection

The evaluation of proposals will be accomplished by a Proposal Review Committee to be designated by the CPRA, which will determine the proposal(s) most advantageous to the CPRA, taking into consideration price and the other evaluation factors set forth in the RFP. The Proposal Review Committee may consult subject matter expert(s) to serve in an advisory capacity regarding any Proposer or proposal. Such input may include, but not be limited to, analysis of Proposer financial statements, review of technical requirements, or preparation of cost score data.

1.29 Best and Final Offers (BAFO)

The State reserves the right to conduct a BAFO with one or more Proposers identified by the Proposal Review Committee to be reasonably susceptible of being selected for an award. If conducted, the Proposers selected will receive written notification of their selection, a list of specific items to address in the BAFO, and instructions for submittal. The BAFO negotiation may be used to assist the State in clarifying the scope of work or to obtain the most cost effective pricing available.

The written invitation to participate in BAFO will not obligate the State to a commitment to enter into a contract.

1.30 Contract Award, Negotiation, and Execution

Contract award and execution are contingent upon the selected Proposer and CPRA reaching an agreeable contract.

The State reserves the right to enter into a contract based on the initial offers received without further discussion of the proposals submitted. The State reserves the right to contract for all or a partial list of services offered in the proposals.

The RFP, including any addenda added, and the selected proposal shall become part of the contract initiated by the State.

The selected Proposer(s) shall be expected to enter into a contract that is substantially the same as the Sample Contract, Attachment I. A Proposer shall not submit its own standard contract terms and conditions as a response to this RFP. The Proposer should submit in its proposal any exceptions or contract deviations that its firm wishes to negotiate. Negotiations may coincide with the announcement of the selected Proposer.

The State reserves the right to negotiate a reduction to the "Required Rate Schedule" hourly rates (Attachment III) with the Proposer(s) selected by the Proposal Review Committee for contract award. The Proposer will receive written notification of the State's intent to negotiate submitted rates. The final negotiated hourly rates on the Proposer's Required Rate Schedule will be

considered the maximum amount allowed. The Prime and the subcontractors will also adhere to the final negotiated hourly rates of the Proposer for the full term of the contract.

Upon execution of a contract awarded from this RFP, and if the State and its Contractor are agreeable to extend the contract for an additional 24 months as referenced in Section 1.4 Term of Contract, the State reserves the right to negotiate up to a 2% increase for each hourly labor rates on the Contractor's Negotiated Required Rate Schedule.

If the contract negotiation period exceeds thirty (30) business days, or if the selected Proposer fails to sign the final contract within thirty (30) business days of delivery, the State may elect to cancel the award and award the contract to the next-highest-ranked Proposer.

1.31 Notice of Intent to Award

The Proposal Review Committee shall compile the scores and make a recommendation to the head of the Agency on the basis of the responsive and responsible Proposer(s) with the highest score(s).

The State reserves the right to make multiple awards. If multiple contracts are awarded, CPRA reserves the right to choose among those contractors that are best suited to perform each specific task order. At no time will the task orders exceed the maximum contract amount.

The State will notify the successful Proposer(s) and proceed to negotiate terms for final contract. Unsuccessful Proposer(s) will be notified in writing accordingly.

The proposals received (except for that information appropriately designated as confidential in accordance with La. R.S. 44:1 *et seq.*), scores of each proposal considered along with a summary of scores, and a narrative justifying selection shall be made available, upon request, to all interested parties after the "Notice of Intent to Award" letter has been issued.

If within thirty (30) calendar days after receipt of such notice, the Contractor shall not have either corrected such failure or, in the case of failure which cannot be corrected in thirty (30) calendar days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the State may, at its option, place the Contractor in default and the Contract shall terminate on the date specified in such notice. 1.36.3 Termination for Non-Appropriation of Funds

The continuation of the contract shall be contingent upon the appropriation of funds by the legislature to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act of Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds have not been appropriated.

1.37 Assignment

No contractor shall assign any interest in this contract by assignment, transfer, or novation, without prior written consent of the State. This provision shall not be construed to prohibit the

Any act of discrimination committed by Contractor, or failure to comply with these statutory obligations when applicable shall be grounds for termination of the contract.

1.40 Record Ownership

All records, reports, documents, or other material related to any contract resulting from this RFP and/or obtained or prepared by the Contractor in connection with the performance of the services contracted for herein shall become the property of the State and shall, upon request, be returned by the Contractor to the State, at the Contractor's expense, at termination or expiration of the contract.

1.41 Entire Agreement/ Order of Precedence

The contract, together with the RFP and addenda issued thereto by the State, the proposal submitted by the Contractor in response to the State's RFP, and any exhibits specifically incorporated herein by reference, shall constitute the entire agreement between the parties with respect to the subject matter.

In the event of any inconsistent or incompatible provisions, this signed agreement (excluding the RFP and the Contractor's proposal) shall take precedence, followed by the provisions of the RFP, and then by the terms of the Contractor's proposal.

1.42 Contract Modifications

No amendment or variation of the terms of this contract shall be valid unless made in writing, signed by the parties and approved as required by law. No oral understanding or agreement not incorporated in the contract shall be binding on any of the parties.

In the event that any State or Contractor personnel become unavailable due to resignation, illness, or other factors, excluding assignment to a project outside this contract, outside of the State's or Contractor's reasonable control, as the case may be, the State or the Contractor shall be responsible for providing an equally qualified replacement in time to avoid delays in completing tasks. If multiple Veterans Initiative or Hudson Initiative subcontractors will be used, the above required information should be listed for each subcontractor. The Proposer should provide a sufficiently detailed description of each subcontractor’s work so the Department is able to determine if there is duplication or overlap, or if the subcontractor’s services constitute a distinct scope of work from each other subcontractor(s).

3.5 Cost Evaluation

For cost evaluation purposes, the labor category hourly rates provided in Attachment III, Required Rate Schedule, will be averaged. The Proposer with the lowest rate schedule average (LRSA) will receive 20 points. All other Proposals will be scored by multiplying the maximum possible points (20) by a fraction that consists of the lowest rate schedule average (LRSA) as numerator and the rate schedule average of the Proposer being evaluated (PRSA) as the denominator.

$$CCS = (LRSA / PRSA \times 20)$$

Where: CCS = Computed cost score (points) for Proposer being evaluated
LRSA = Lowest rate schedule average
PRSA = Rate schedule average of Proposer being evaluated

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 31463148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C.

3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and sub grants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(J) See §200.323.

(K) See §200.216.

(L) See §200.322.

ATTACHMENT IV: ELECTRONIC VENDOR PAYMENT SOLUTION

In an effort to increase efficiencies and effectiveness as well as be strategic in utilizing technology and resources for the State and Contractor, the State intends to make all payments to Contractors electronically. The LaCarte Procurement Card will be used for purchases of \$5,000 and under, and where feasible, over \$5,000. Contractors will have a choice of receiving electronic payment for all other payments by selecting the Electronic Funds Transfer (EFT). If you receive an award and do not currently accept the LaCarte card or have not already enrolled in EFT, you will be asked to comply with this request by choosing either the LaCarte Procurement Card and/or EFT. You may indicate your acceptance below.

The **LaCarte** Procurement Card uses a Visa card platform. Contractors receive payment from state agencies using the card in the same manner as other Visa card purchases. Contractors cannot process payment transactions through the credit card clearinghouse until the purchased products have been shipped or received or the services performed.

For all statewide and agency term contracts:

- Under the LaCarte program, purchase orders are not necessary. Orders must be placed against the net discounted products of the contract. All contract terms and conditions apply to purchases made with LaCarte.
- If a purchase order is not used, the Contractor must keep on file a record of all LaCarte purchases issued against this contract during the contract period. The file must contain the particular item number, quantity, line total and order total. Records of these purchases must be provided to the Office of State Procurement on request.

EFT payments are sent from the State's bank directly to the payee's bank each weekday. The only requirement is that you have an active checking or savings account at a financial institution that can accept Automated Clearing House (ACH) credit files and remittance information electronically. Additional information and an enrollment form is available by contacting the Office of Statewide Reporting & Accounting at DOA-OSRAP-EFT@la.gov.

To facilitate this payment process, you will need to complete and return the EFT enrollment form..

If an award is made to your company, please check which option you will accept or indicate if you are already enrolled.
